Important Announcement

Due to certain technical procedures that need to be completed by the University of Kerala, the final rank list for **B.Com Logistics & Supply Chain Management** will be published at a later date. We expect to receive the required approval within one month.

For candidates who have selected **B.Com Logistics & Supply Chain Management** as their **first choice**, their **second and third choices** will temporarily be treated as their **first and second choices**, respectively, for the current admission process.

Once the University grants approval, we will publish the rank list for **B.Com Logistics & Supply Chain Management** based on the candidates' **original choice preferences** submitted during the application process. Admissions to the programme will then be carried out accordingly.

We regret the inconvenience caused and appreciate your patience and understanding.
